Federal Communications Commission
445 12th Street SW, Washington, DC 20554

Dear Commissioners,

As a small business owner working in public media, I use and rely upon, open, neutral access to internet communications. My small production company Souvenir Pictures Inc. cannot afford to compete with the behemoths in the media space to purchase preferential access or even equal access to speed and bandwidth that the proposed regulation changes would allow.

Please, do not undo the current regulatory system.

Please, retain net neutrality.

The playing field for media companies is already so heavily weighted against small businesses like mine. As it stands, I have little choice for internet access providers. If you then give them the authority to decide how to apportion access, you are further undermining the competitive playing field for small businesses.

Thank you for your consideration.

Sincerely,

Mylène Moreno
President
